

TECHNICAL EXPERT ASSISTANCE FOR THE PREVENTIVE ANALYSIS OF RISKS INVOLVING DIRECT DAMAGE TO PROPERTY

TECHNICAL EXPERT ASSISTANCE IN CASES OF PROPERTY DAMAGE USEFUL FOR INSURANCE PURPOSES AND/OR PRELIMINARY TECHNICAL EXPERT REPORT ALSO IN MATTERS OF PRODUCT DAMAGE

SERVICE PROVIDED

- *We have identified in Italy, in the EU, in the UK and in the USA a network of technical correspondents useful for supporting the Company in classifying the characteristics of the risks of production or logistics units for insurance and other purposes;*
- *The report highlights critical elements relating to the protection of assets against accidental or wilful misconduct by third parties, qualifying the degree of coverage of the means of protection and the Maximum Probable Damage;*
- *For significant amounts exceeding Euro 10 million or complex risks due to the manufacturing process involved, we can also call on the services of risk assessment companies, which are competent to issue a **certified report** that also has value for the purposes of balance sheet valuation also for asset revaluation.*

PRODUCT DISPUTES OR ASSESSMENT OF ACCIDENTAL PROPERTY DAMAGE

- *Similarly, we have identified a network of qualified professionals to support the company in the event of a customer dispute regarding the product, with the drafting of an expert report that can be used in legal proceedings or Preliminary Technical Expert Reports*
- *The aforementioned Professionals may also collaborate as Technical Consultants on behalf of the parties, assisting the Insurers' Independent Expert in ascertaining the nature and extent of the damage to the insured property.*
